

E-LEARNING AT HOME

How educators and learners can implement distance learning

FOR THE EDUCATOR

VIDEOS

Create, download or record videos and send it directly to the learner's e-book.

FLASHCARDS

Create flashcards for the learners to practise in the e-learning app.

ASSESSMENT

Send informal assessments to the learners so they have a chance to revisit what they may have forgotten.

LEARNING PATH

Create a plan for learners to follow and keep track of study progress.

ANALYTICS

See detailed statistics of the learner's engagement on the e-learning app.

RESOURCES

Send content directly to the learner in the form of PDF, photo, audio, Microsoft documents and Google links.

FOR THE LEARNER

Learners are able to engage with their e-books and resources via an e-learning and e-reader app, miEBooks. With this powerful tool in hands, they are able to do the following:

Access e-books online and offline on their device

Create, receive and practise flashcards

Receive content and resources from educator

Watch videos and listen to audio content, offline

Make their own highlights, notes and sketches

Complete assessments sent to them by the educator
