

# Choose the right career path for you with Optimi Classroom and Career Compass

optimi  
classroom

Need to choose a career path but not sure if you are heading in the right direction?

Career Compass can guide you on your journey by matching your personality type to compatible work environments. Our questionnaire is based on Dr John L. Holland's scientifically proven personality theory. It is the most widely used career counselling theory in the world.

## Career Compass gives you:

- Career options suited to your personality
- Personalised and instant results
- Career insights

## In just 30 minutes you can have the answers to most of your career questions.

Once you have completed the questionnaire, you will be linked to a comprehensive career database. The database provides information on all your personalised career options, including:

- **A job description for each career** – so you know exactly what each job option entails.
- **The relative demand in the South African labour market for each career option** – so you can choose a career that is likely to have job openings after you have graduated.
- **Bright outlook occupations** – these are the jobs that are expected to grow rapidly in the next few years.
- **Training institutions in South Africa available for the career of your choice** – here you can see where to study to pursue the career option best suited to you.
- **A continuously updated database** – you can explore your career options over time and keep an eye on the evolving opportunities in the job market.

## Make sure you are heading in the right direction

**COST PER ASSESSMENT – R95,00**
